VISION

“TO PROVIDE A WORLD CLASS INTEGRATED HEALTHCARE SYSTEM, WITH A FOCUS ON PATIENT CARE TO THE UNDERPRIVILEGED PEOPLE, BY LEVERAGING TECHNOLOGY LED BY A TEAM OF COMMITTED PROFESSIONALS EQUIPPED WITH THE FINEST MEDICAL SKILLS.”

Preface

It was observed during the visit to the Oncology Ward of the hospital, as a volunteer of Indian Cancer Society that many children from underprivileged sections of the society are undergoing prolonged treatment that goes for months.

The young children are coming from different parts of India and neighboring countries. During the intervening period of treatment, they keep themselves engaged by viewing cartoons, serials, films , etc. on their mobile phone or just lying , staring or sleeping.

They have missed their connection with studies. Even though few would like to connect are constraint for having required study material in their language of study. The parents are concerned that their child will forget whatever they have learnt, by the time the treatment is over and they resume their studies at their native place. This concern has also been endorsed by the professionals attending these patients.

A Multilingual Library for Pediatric Oncology Patients with books of early learning and primary education level and stationeries were felt necessary to facilitate maintaining the connect of the young children with their studies. Also, it will be helpful in reducing their exposure to screen time and idle time while adding to value-added activity time.

May the initiative address an area of concern shared by the children, their parents and the professionals in the field.

Rai Sachindra Bahadur

RAI SACHINDRA BAHADUR

The Chief Administrative Officer
Vydehi Hospital
Whitefield, Bengaluru

Ref: Creation of a Multilingual Book Library

Dear Sir,

Please note that I am associated with the Oncology Department of the hospital since June, 2024 for providing emotional support as a volunteer from Indian Cancer Society, Bangalore. I feel blessed to have been given an opportunity to reach out to cancer patients and their caregivers to let them communicate their thoughts and feelings without any reservation.

I would like to share my observation during the visit to Oncology wards that many children from weaker sections of the society are undergoing prolonged treatment that goes for months. They come from different parts of India and neighbouring countries. Most of the children during the intervening period of treatment keep themselves engaged by viewing cartoons, serials, films , etc on their mobile phone or just lying or sleeping.

They have missed their connection with studies. They are missing their books. Their parents are concerned that their child will forget whatever they have learnt by the time the treatment is over and they resume their studies at their native place.

In order to provide an alternate engagement , I propose to support creation of a Multilingual Book Library under hospital direction and supervision. The Book Library will have few copies of books of Pre-primary and Primary Classes prescribed by State Boards . The books can be borrowed by an in-patient child through their caregiver for a limited time and then returned to the library. The library will also stock a few stationery items like paper, note-book, pencil etc to support their study. The specific range of books are opted with the understanding that most of the children from BPL and underprivileged sections of society go to Government Schools under respective state schemes.

I request you to please give your due permission and blessings to start the Multilingual Book Library at your hospital for the said purpose. A designated contact person of the hospital will be of help to coordinate with and take the proposal forward.

Looking forward to your consent to the earliest

With kind regards,

10/12/2024

To,

Mr. Rai Sachindra Bahadur

Volunteer .
Indian Cancer Society

Dear Sir,

I hope this letter finds you well. On behalf of Vydehi Cancer Center, VIMS&RC. I am writing to formally acknowledge and express our gratitude for your generous offer to donate books to our hospital.

We are delighted to accept your kind donation of books and are confident that they will be of great value to our pediatric oncology patients.Your contribution will significantly enhance our efforts to reduce screen time of our patients as well as it can help them to bridge the gap between their studies and we truly appreciate your support.

Please feel free to coordinate with oncology social work department regarding the best time and method for delivering the books. Should you need any further assistance or information, do not hesitate to contact oncology social work department

Thank you once again for your thoughtful donation. We look forward to working with you and benefiting from your generosity.

Thanking you

With Regards

Dr. Ganesh M S
